Mistral Value Fund - Class A (LU1319788557) a Sub-Fund of The Guardian Sicav

The management company is SELECTRA Management Company S.A.

Objectives and Investment policy

Objectives and Investment Policy

Mistral Value Fund, Sub-Fund of The Guardian Sicav, aims at providing medium to long-term capital growth.

To achieve this goal, we use a flexible portfolio management approach not limited in terms of geographical area, economic sector or currency, investing in equity instruments (up to 100%) and fixed income instruments (up to 40%, including high yield / non-investment grade bonds up to 10%).

The Sub-Fund may invest up to 40% in shares/units of UCITS and other UCIs (including ETF and ETC), of which up to 30% in shares/units of other UCIs.

We may use listed Financial Derivative Instruments (futures and options on index, volatility and forex).

On a temporally basis, we may also invest in cash or money market instruments (up to 100%).

The Sub-Fund's management will be discretionary in terms of the choice of assets, without reference to any index or any other indicators.

Recommendation

You will not receive any dividend from the Sub-Fund. Dividends received by the Sub-Fund will be reinvested.

You can subscribe and redeem your shares daily during Luxembourg business days, before (cut-off) 5:00 pm (Luxembourg time).

As an investor, you must have a medium to long-term investment horizon with a high risk profile.

This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years. You must also assume the risk of receiving a lower amount than your original investment.

Risk and reward profile

Given the lack of historical data available on the share of the Sub-Fund, as not launched yet, the above indicator has been calculated on a standard asset selection that we would have adopted at the time when the indicator has been computed.

Stock funds are more volatile than bond funds. Due to the fact the Sub-Fund invest in mix of both asset classes with a maximum of 100% of equity instruments, the risk indicator is set at 5 (medium to high risk).

However, the risk category shown is not guaranteed and may shift over time while the lowest category does not mean "risk free". Also you must be aware that historical data is not a reliable indication of the future risk profile of the Sub-Fund.

Please note the following risks are materially relevant to the Sub-Fund and are not adequately captured by the indicator:

- Counterparty risk: the insolvency of any institutions providing services such as safekeeping of assets or

other instruments may expose the Sub-Fund to financial losses.

- Operational risk: failures or delays in operational processes may negatively affect the Sub-Fund.

- Credit risk / debt securities: A security issuer may not be able to meet its obligations to make timely payments of interest and principal. This will affect the credit rating and the price of those securities.

- Credit risk / non-investment grade: Non-investment grade securities will generally pay higher yields than more highly rated securities but will be subject to greater market, credit and default risk.

- Liquidity risk: lower liquidity means there are insufficient buyers or sellers to allow the Sub-Fund to sell or buy investments readily.

For further information concerning the risks of your investment, we recommend you to consult the sales Prospectus of the Sub-Fund. It is available at the registered office of the Company and on the website www.theguardiansicav.com.

Charges

One-off charges taken before or after you invest	
Entry charge	0,00%
